Descent And Alliance

Definition

III. Applications in Anthropological Studies

Thinkers

Radcliffe-Brown: Used genealogies to reconstruct descent groups and social structure in Africa. Malinowski: Used them to understand kinship and land inheritance among the Trobriand Islanders. Claude Lévi-Strauss: Used genealogical/kinship data to develop Alliance Theory, focusing on marriage and exchange between lineages. India: S.C. Roy documented Oraon genealogies; Irawati Karve used genealogical mapping to study village kinship and exogamy in Maharashtra. Challenge to Descent Primacy: While British anthropologists like Radcliffe-Brown emphasized descent groups (lineages/clans) as the primary basis of social structure, the Purum system proved that marriage alliances are equally fundamental.
