Sendai Framework

UN disaster risk-reduction framework adopted in 2015 at Sendai, Japan, succeeding the Hyogo Framework.

Seven global targets

Mortality, affected people, economic loss relative to GDP, infrastructure and services, DRR strategies, international cooperation, multi-hazard early warning.

Four priorities

Understand risk; strengthen risk governance; invest in resilience; enhance preparedness for response and to "build back better".

DM Act, 2005

India's statute creating NDMA, SDMAs and DDMA as the institutional spine of disaster management.

Build back better

Sendai language: recovery should reduce future risk, not rebuild the same vulnerability.
